

conserv_zones

Location: planning\conserv_zones

Description

This layer consists of conservation zones used in the Bay County Comprehensive Plan dated December 1999. The layer consists of polygon and arc features, along with an arc attribute.

Source

In July 1998, Bay County GIS staff created this coverage in ArcInfo. The Planning Manager supplied a paper map with the conservation zones highlighted. Features from the existing coverages **county** and **plss** were used to create the conservation zones. (For more information, see **county** and **plss** documentation.)

In April and May 1999, Deer Point Lake Protection Zone was removed to a separate **deerpt_zone** coverage (as well as part of **ecosys_mgt**). The coverage was converted to a shapefile. See Map 7 Conservation Zones in the Comprehensive Plan.

This data includes some line conservation zones designated as Preservation.

This data is provided with the understanding that the conclusions drawn from such information are solely the responsibilities of the user. The GIS data is not a legal representation of the features depicted, and any assumption of the legal status of this data is hereby disclaimed. Errors or omissions should be reported to the Bay County GIS Division 850-784-6171.
